

P-FIX Wrist Splint

Ergonomic design

Well-considered design combines wearer comfort and effective performance.

Environment

We take into account the patient as well as the environment.

Comfort

The quality of our products shows itself in the level of comfort experienced.

The P-FIX brace features three anatomically shaped, moldable, and removable splints. It is equipped with three velcro straps to adjust the closure according to the size of the patient's forearm. The brace is fully openable, making it easy to apply to painful or recently operated wrists. The bacteriostatic Radyarn® textile ensures improved hygiene, comfort, and breathability.

Indications:

- **Traumatic conditions:** wrist sprains, distal radius fractures, wrist tendonitis.
- **Degenerative conditions:** carpal tunnel syndrome, osteoarthritis, acute gout arthritis, rheumatoid arthritis.
- **Rehabilitation phase:** post-traumatic and postoperative relief.
