

Silistab Epicondylitis brace

Ergonomic design

Well-considered design combines wearer comfort and effective performance.

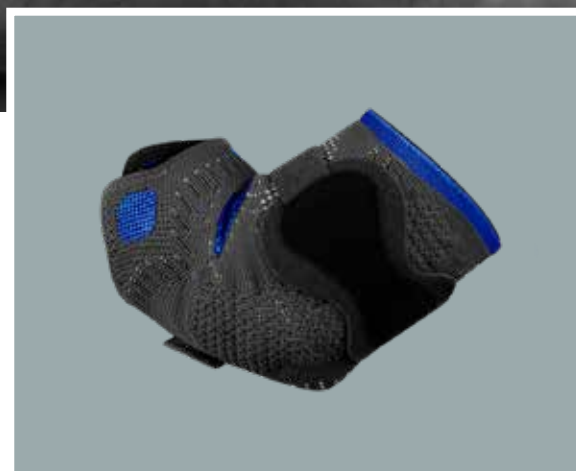

Environment

We take into account the patient as well as the environment.

Comfort

The quality of our products shows itself in the level of comfort experienced.

Thanks to its silicone pallot, this anatomically fitted epicondylitis brace puts a massage-like pressure with a proprioceptive effect on the elbow, thus causing the elbow to be relieved.

Available in the following sizes:

Article number	Article description	Circumference 8cm below elbow	Size
