

Thumb Splint

Ergonomic design

Well-considered design combines wearer comfort and effective performance.

Environment

We take into account the patient as well as the environment.

Comfort

The quality of our products shows itself in the level of comfort experienced.

The Thumb Splint features a patented RIZOFIX system that supports the thumb from the inside. The thumb splint is made from breathable materials. The position of the thumb is easy to adjust. The brace can be used on either side (left or right) and is available in three sizes.
