

Basic Wrist Brace with Thumb

Ergonomic design

Well-considered design combines wearer comfort and effective performance.

Environment

We take into account the patient as well as the environment.

Comfort

The quality of our products shows itself in the level of comfort experienced.

The GeniMedical “Basic Wrist Brace with Thumb” is a ready-to-use splint for immobilizing the wrist and thumb. The brace features an aluminum splint and 3 Velcro straps for a secure, stable fit. The pleasant and soft material provides a high level of comfort.

With a length of 25 cm, this wrist brace provides exceptionally stable support.

Indications:

Provides wrist and thumb support for a range of injuries, conditions, pre- and post-operative situations, such as:

- Stable fractures
- Sprains and strains
- Soft tissue injuries and conditions
- Arthritis
- Rhizartrosis
- Thumb traumas
- Peripheral nerve pathology
