

Airstep Walker

Ergonomic design

Well-considered design combines wearer comfort and effective performance.

Environment

We take into account the patient as well as the environment.

Comfort

The quality of our products shows itself in the level of comfort experienced.

The Airstep Walker is a walker that guarantees an optimal fit for the patient thanks to its air chambers and is also very comfortable to use. The wide rocker bottom sole allows for a natural roll-off of the foot.

Indications:

- Moderate to severe ankle sprain
- Stable fracture of the distal part of the lower leg and/or foot fracture
- Postoperative immobilization
