

GenuRange Knee Brace

Ergonomic design

Well-considered design combines wearer comfort and effective performance.

Environment

We take into account the patient as well as the environment.

Comfort

The quality of our products shows itself in the level of comfort experienced.

The GenuRange is a circumferential knee brace with ROM hinges. The 3D spacer fabric with an open mesh panel at the back provides a supportive, comfortable, and well-fitting brace. Suitable for the treatment of various knee conditions, including mild to moderate collateral ligament injuries and mild cruciate ligament instability.
