

Malleo Dynastab BOA

Ergonomic design

Well-considered design combines wearer comfort and effective performance.

Environment

We take into account the patient as well as the environment.

Comfort

The quality of our products shows itself in the level of comfort experienced.

The Malleo Dynastab BOA is a stabilizing and supportive ankle brace with a convenient BOA® closure for daily and athletic activities. Stiff lateral rigid splints provide stability to the ankle.

Cross-lacing elastic bands optimize the stability of the rigid splints. The ankle brace is easy to put on and is slim, fitting well in the shoe. It is preventive when resuming activities after an ankle injury.

Indications:

- (chronic) laxity of the ankle ligaments
- Status post ankle sprain/twist
- Rupture of ankle ligaments
- Post-traumatic, postoperative ankle complaints

Available in the following sizes:

Article name	Article description	Ankle circumference in cm	Size
035101-0	Malleo Dynastab BOA	16 - 19 cm	0
