

Velcro

Ergonomic design

Well-considered design combines wearer comfort and effective performance.

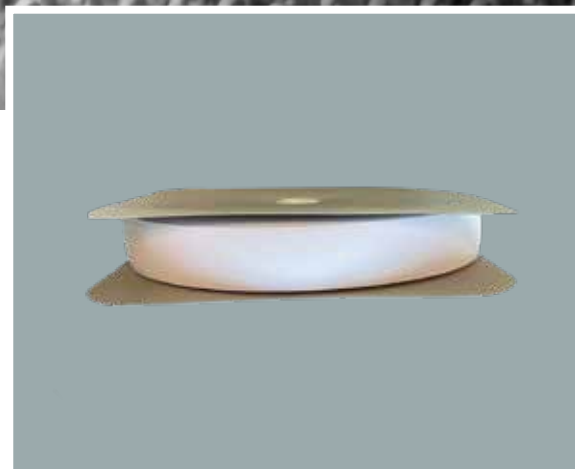

Environment

We take into account the patient as well as the environment.

Comfort

The quality of our products shows itself in the level of comfort experienced.

The Velcros (standard white) are made from woven polyamide and are available as hook and loop fasteners. By pressing the two straps together, you achieve a reliable and secure closure that is easy to open. In addition to the standard non-adhesive and self-adhesive Velcros, an elastic Velcro is also available. The Velcros are available in various sizes.

Colors are available upon request (except for the elastic loop strap).

Available in the following sizes:

Article number	Article description	Dimensions in cm
GM200	Self-adhesive hook	2,5 x 2500
